PRESS RELEASE

FOR IMMEDIATE RELEASE

11 January 2021

MAK CHEM & LUBES join A&S International Ltd

MAK CHEM International & MAK LUBES International brands become part of the growing product range represented by the UK based technical sales consultancy.

THEALE, Reading, Berkshire, UK - A&S International is excited to start the new year with not one but two excellent new additions to its growing range of quality related brands. MAK CHEM's range of maintenance chemicals have been acquired along with the MAK LUBES range of maintenance lubricants.

A&S International will offer both product lines to their global distributor network & developing UK direct client base with immediate effect. Sales of these new quality maintenance chemicals & lubricants steadily grew during the second half of 2020 despite the limiting business conditions created by the COVID-19 pandemic.

Particular success has already been enjoyed by the MAK CHEM brand in Greece, Philippines & Portugal. The majority of the products can be easily & effectively demonstrated to clients; however, due to the current inability to visit industrial sites in many countries, a range of demonstration videos have been produced for inclusion on the corporate websites & social media.

"It is fantastic to start 2021 with the great news that the MAK CHEM & LUBES International brands are now part of our growing range of products. We have ambitious plans to develop the global sales of these high-performance maintenance chemicals & lubricants via our team of loyal distributors, direct clients here in the UK as well as a new network of distributors. Our team is pleased to see the

high level of interest from around the world despite the continuing challenges of doing business in a pandemic.”

Commented Angus Macdonald, Co-Founder & Director of A&S International Ltd.

Companies that are interested in the profitable business opportunity of marketing & selling the MAK CHEM & MAK LUBES product lines in their territories should contact the A&S International team via the website. New distributor partners will be warmly welcomed & assisted with product training and prompt technical support: <https://www.aands.international/contact/>
